

TEACHING PHILOSOPHY

Children are the future. Our goal as a martial arts institute is to train children to defend themselves against actual physical attack and to better prepare them to cope with the pressures and problems of growing up. Our positive approach to teaching will help some children to channel aggression while encouraging others to be more assertive. As a result of this training, the martial arts student develops confidence. This means confidence in their ability to defend themselves, confidence in setting realistic goals, and confidence in the decisions they make in order to achieve the goals they have set. Children reach higher levels of academic achievement, develop good manners, and learn the value of respect.

We Also Seek To Help Children:

- **Maintain a Healthy Lifestyle**
- **Improve Self-Esteem**
- **Develop Leadership Skills**
- **Deal with Bullies / Strangers**
- **Develop a "CAN DO" Attitude!**

OUR STAFF

Not only is our staff experienced instructors, certified to instruct students of all ages, but we are also parents ourselves.

- Master Scott Greca, 4 children
- Deputy Master Craig Greca, 5 children
- Mr. Nick Wright, 2 children

Many of our instructors and assistant instructors are parents too. So we understand the joys and difficulties of being parents. We also understand the value of positive developmental activities such as Choi Kwang-Do and how they can significantly benefit our children.

At any time, if you have any concerns or questions, please don't hesitate to speak with us. We are willing to go out of our way to work directly with the parents of our students in order to provide the best experience and opportunity to all.

We Would Love to See Your Smile!!!
